MUSIC: Can We Use It To Win?

Hi, my name is Vijay Sarma, my number is 647-857-5755, and I'm running for Mayor to fight for our future. One thing that gives me energy to handle serious issues is music, or as Bob Marley puts it: "The one good thing about music, when it hits, you feel no pain…" Even with concerns about our health, wealth and relationships?

Absolutely. If we keep it real, we can use music to keep us really energized, even if it's not related to what we work on. We can use our inspiration for more than just entertainment, if we know what to do, which is expose the lies that keep us trapped in fear, something that the best artists do and want us to do anyway. We can all look at the world more confidently to reach our own potential. Why not? After all, it's your music, so can you use it? ☺
